

Application for declaration of facility

under section 54 of the National Greenhouse and Energy Reporting Act 2007

Purpose of this form

This form is for a controlling corporation to apply to the Clean Energy Regulator for a declaration that an activity or series of activities are a facility.

Eligibility

Defining a facility

Under the National Greenhouse and Energy Reporting Act 2007 (the NGER Act) a registered controlling corporation must report on the greenhouse gas emissions, energy production and energy consumption from the operation of facilities under the operational control of the corporation's group.

Defining each facility (and its boundaries) for which a corporate group has operational control is central to defining the reporting obligations of a registered corporation under the NGER Act.

A facility is defined as an activity or series of activities that:

- Produce greenhouse gas emissions and/or produce energy and/or consume energy,
- Are part of a process that produces one or more products or services,
- Are attributable to a single ANZSIC industry sector, and
- Occur at a single site.

The single site criteria does not apply to activities that can be attributed to transport industry sectors (such as air, road, rail, post and waste collection) and network industry sectors (such as electricity transmission, gas supply, water supply and telecommunications).

Declarations of facility

Under section 54 of the NGER Act the Clean Energy Regulator may make a declaration that an activity or series of activities are a facility, either on the Regulator's own initiative or on application by a controlling corporation.

When such a declaration is in force the facility is deemed to exist for the purposes of the NGER Act.

When to apply for a declaration of facility

Only in exceptional circumstances should a corporation apply to the Clean Energy Regulator for a declaration of facility.

Specialist advice should be sought where there is uncertainty or disagreement about the definition of a facility. All reasonable efforts to apply the definition of facility in the NGER Act to a corporation's circumstances should be made prior to any application for a declaration.

Requirements for an application for a declaration of facility

An applicant for a declaration of facility must be a controlling corporation for the purposes of the NGER Act.

Each application for a declaration of facility must relate to an activity or series of activities that are proposed to form a single facility.

The applicant or a member of its corporate group must have overall control over the activities or series of activities that are the subject of the application.

An application for a declaration of facility may be made at any time regardless of:

- whether the applicant has applied for registration under the NGER Act, and
- financial ownership of the activity or series of activities that are the subject of the application.

Instructions for completing this form

Please read each part of the application carefully, fully answer all the questions in those parts of the application that the applicant is required to submit, sign where indicated, and attach the required documentation.

Each applicant must complete and submit:

Duplex printing	This form is designed to be duplex printed to save on paper. All new sections start on the right-hand side of a page spread.

Help filling in this form

The NGER Act should be read in conjunction with the *National Greenhouse and Energy Reporting Regulations 2008* (the NGER Regulations).

The NGER Act, NGER Regulations and NGER Guidelines may be obtained on the [Clean Energy Regulator website](#).

If you require assistance filling in the form or have any questions regarding this application process please contact the Clean Energy Regulator general enquiries line 1300 553 542 or <mailto:reporting@cleanenergyregulator.gov.au>

Submitting this form

A signed copy of this form should be kept for your records.

By post

Post your completed application with any accompanying documentation to:

Clean Energy Applications
Clean Energy Regulator
GPO Box 621

Additional information

This document contains important terms that are found within the NGER Act. Refer to the NGER Act, in conjunction with the NGER Regulations, for the meaning of these terms and ensure that you correctly apply them to your particular circumstances.

The *National Greenhouse and Energy Reporting Guidelines* (the NGER Guidelines) have been developed to help corporations understand their obligations under the NGER Act and the NGER Regulations.

The NGER Act, NGER Regulations and NGER Guidelines may be obtained at the [Clean Energy Regulator website](http://www.cleanenergyregulator.gov.au/National-Greenhouse-and-Energy-Reporting/Pages/default.aspx) (<http://www.cleanenergyregulator.gov.au/National-Greenhouse-and-Energy-Reporting/Pages/default.aspx>).

Assessment of the Application

Once an application has been received, the Clean Energy Regulator will consider the application and the information provided.

For each application for a declaration of a facility, the Clean Energy Regulator will either:

- make a declaration, or
- refuse the application.

The Clean Energy Regulator may seek any further information required to inform the decision on the application, either from the applicant corporation or any other affected party.

Please ensure that all details provided in this application are accurate, up to date and complete. A declaration will only be made if complete information is provided.

There is no statutory timeframe for a decision regarding an application for a declaration of facility.

The Clean Energy Regulator will notify the applicant in writing of the decision on the application.

Protection of information

The Clean Energy Regulator is bound by the secrecy provisions of Part 3 of the *Clean Energy Regulator Act 2011* (CER Act) in regard to information it collects in relation to this application and also by the *Privacy Act 1988* in regard to personal information it collects.

Privacy notice

'Personal information' is defined in the *Privacy Act 1988* to mean information or an opinion about an identified individual, or an individual who is reasonably identifiable:

- a) **whether the information or opinion is true or not; and**
- b) **whether the information or opinion is recorded in a material form or not.**

The collection of personal information relating to this application is authorised by the *National Greenhouse and Energy Reporting Act 2007* (NGER Act) and the *National Greenhouse and Energy Reporting Regulations 2008*.

Personal information collected in relation to this application will be used for the purposes of assessing the application, auditing compliance, enforcement of relevant laws and regulations and for related purposes. We cannot process the application if we do not collect relevant personal information.

The Clean Energy Regulator's Privacy Policy contains information about the agency's procedures for handling personal information including how a person can access their personal information held by the agency, and how to seek correction of such information. The Privacy Policy also contains information about how to complain about

a breach of the Australian Privacy Principles. The Clean Energy Regulator's Privacy Policy can be found at www.cleanenergyregulator.gov.au.
