# Targeting compliance in the Small-scale Renewable Energy Scheme in 2017

Michelle Crosbie, General Manager, Participation and Compliance

---

## Outline

- Compliance focus areas for 2017
- SRES Scheme Integrity Measures
- Battery Storage Register
- Questions

# 2017 compliance priorities

## Using data analytics to detect non-compliance

### Emissions Reduction Fund

Integrity of client declarations and ability to meet contractual obligations

### National Greenhouse and Energy Reporting scheme

Enhance data integrity

Auditor compliance with standards

### Safeguard Mechanism

Scrutinise integrity of initial baselines

### Small-scale Renewable Energy Scheme (SRES)

Enhanced monitoring of integrity of claims for small scale renewable energy certificates

### Large-scale Renewable Energy Scheme (LRET)

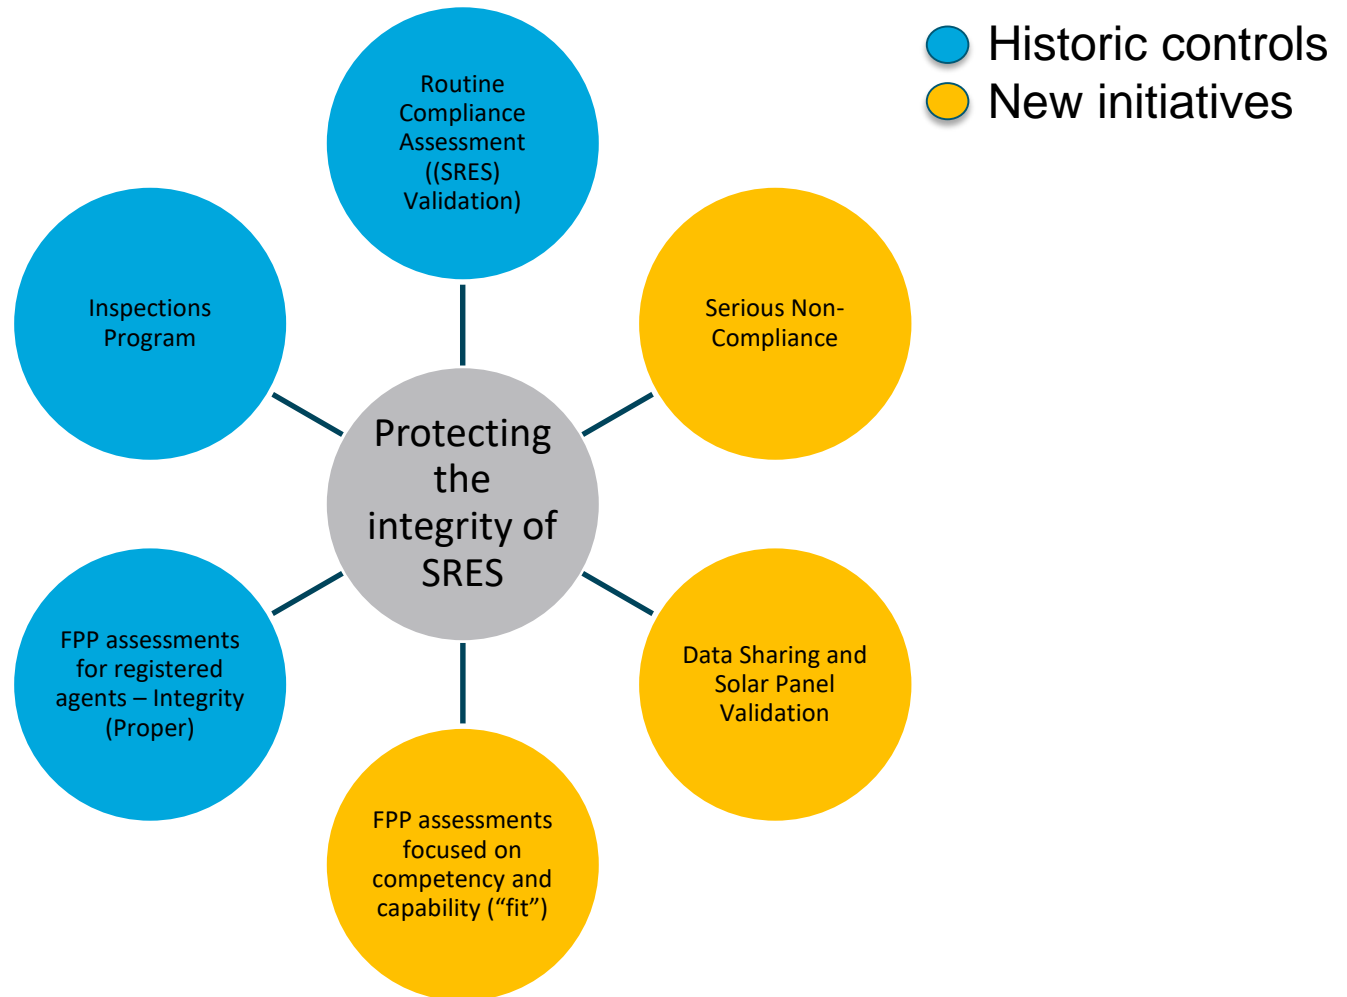

Increased scrutiny of annual acquittal of LGC liability

Increased scrutiny of data provided

# Scheme Integrity Measures

- Inspections Program
- Serious non-compliance
- FPP Posture (Capability and Competency)
- AEMO Data Exchange
- Serial Number Project

# Protecting the integrity of the Small-scale Renewable Energy Scheme (SRES)

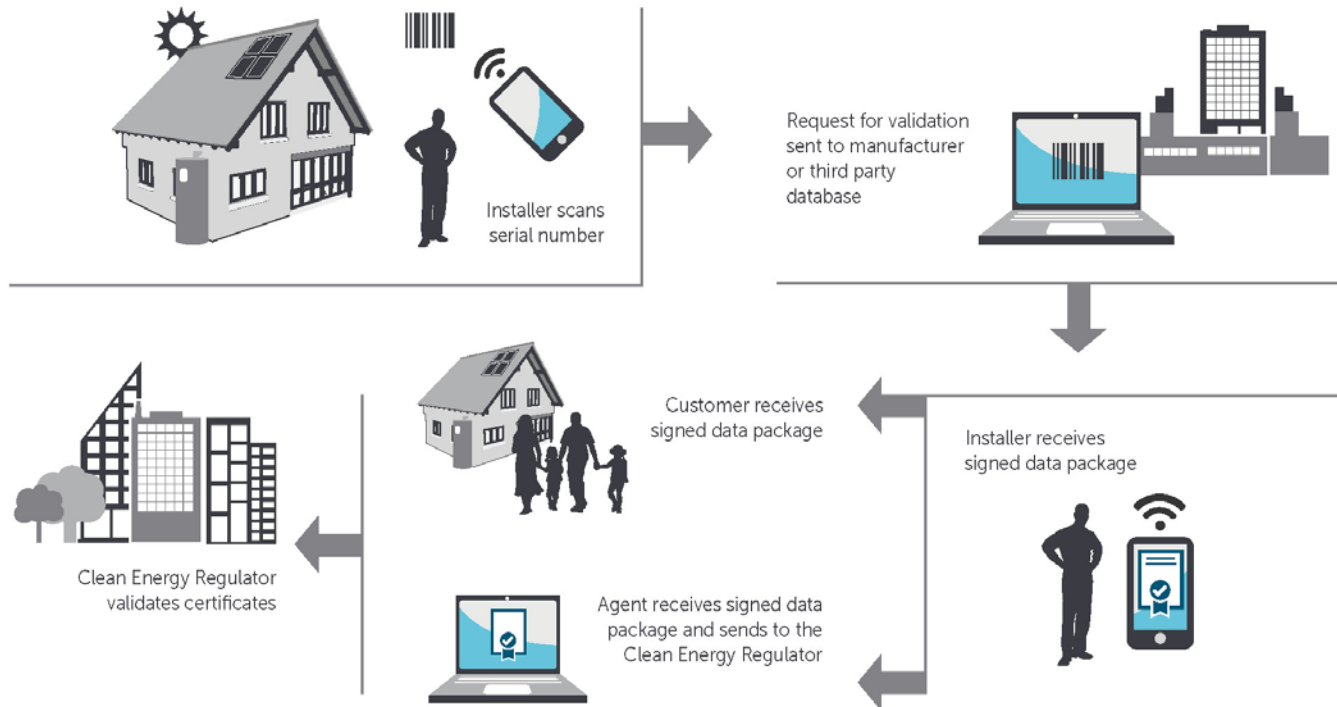

# PV Inspections Program

Year	Systems inspected	Unsafe	Sub-standard	Safe
2013	3909	3%	10%	87%
2014	3647	3%	16%	81%
2015	2080	6%	19%	74%
2016	3441	2%	22%	75%

# Solar Panel Validation Pilot

## SERIAL NUMBER PROJECT CONCEPT
